Period	From 01.12.2017 – 10.06.2020
Company	KM-Ware
Project Role	Frontend Developer (Angular developer)
Project	24 seven office reports
Basic responsibilities	✓ Writing tests ✓ Writing code (create new components based on customer requirements) ✓ Provide solution for customer desires
what I liked about this project	✓ Worked in a team. ✓ On this project I first started working with NGRX and I really like it). ✓ There has always been an opportunity to communicate with the customer's side through a general chat ✓ The customer provided all the necessary information from his side for this project and there was always an opportunity to ask him a question. ✓ I am really happy working with such a nice customer.

Period	From 01.12.2017 – 10.06.2020
Company	KM-Ware
Project Role	Frontend Developer (Angular developer)
Project	DocProfWeb
Basic responsibilities	✓ Writing tests ✓ Writing code (create new components based on customer requirements and design) ✓ Provide solution for customer desires ✓ Search alternative solution if customer desires impossible to implement
what I liked about this project	✓ Worked in a team and worked alone ✓ Unusual application architecture ✓ There has always been an opportunity to communicate with the customer's side through a general chat
